Qualification:

Degree	Institute	Grade
Master of Computer Application	S K Patel Institute, Kadi University	Distinction (8.1 CPI)
Bachelor of Computer Application	Shree Chimanbhai Patel Institute of Computer Applications, Gujarat University.	Distinction (71.52%)

Technical Skills:

Technologies	.Net Core, ASP.NET, MVC, Angular, C#, Micro Services, CICD, Docker, Azure development, JavaScript, JQuery, RabbitMQ
Tools	Visual Studio 2010-2012-2013-2017-2019, SQL Server Management Studio, SVN, TFS, GitHub.
Database	MSSQL 2008/2012/2016/2019

Project Details:

Title	Enterprise Platform (Olympus)
Description	➢ This is a giant micro service based web application which is indented to replace multiple systems for big range of blood processing device by packaging a common web application features (Tenant, Users, Data input, Reporting, Auditing, Protocol Management etc.) with a device specific needs.
Period	~1 Year
Role	Consultant
Responsibility	Lead Developer, Unit Test, Code Reviews
Technology	.Net Core, Docker, Micro Services, SQL Server, Angular, RabbitMQ,

Title	Cell Processing Application
Description	➢ This application will help blood processing devices to gather the required details (Ex. User management, protocols, reporting) via API endpoints. ➢ Web application will be able to manage the data which are required to handle the device. ➢ Application is able to support localization and combination of multiple reusable common components.
Period	~1.5 Years
Role	Consultant
Responsibility	Lead Developer, Unit Test, Code Reviews, CICD
Technology	.Net Core, Micro Services, SQL Server, Angular

Title	Spot Bill Application for Energy / Utility Sector
Description	➢ This application is used to bill the customer on spot when meter reader is going to read burned units.

	➢ We have developed admin CMS & API to achieve spot bill.
	➢ API in this system will talk with SAP [leading ERP].
Period	~1.7 Years
Role	SSE
Responsibility	Senior Developer, Unit Testing
Technology	.Net Core, EF Core, MySQL, Angular

Title	POS system
Description	➢ This is web application for one of the shopping mall.
Period	2 Years
Role	SSE
Responsibility	Developer, Support, Unit Testing
Technology	ASP.net, MVC, WCF, HTML, CSS, JQuery, SQL Server

Title	Medical Aid System
Description	➢ This is web application to manage the clinic including patient management, doctor patient visit, and pharmacy.
Period	2 Year
Role	SE
Responsibility	Developer, Unit Testing
Technology	ASP.net, AJAX, HTML, CSS, JQuery, SQL Server

Training Attended:

Date	Title
2021	YEP (Young Emerging Professional – Internal to Capgemini to build leadership quality)
2020	Micro Services, Docker, Kubernetes (Internal to Capgemini)
2019	.Net Core (internal to SPEC-INDIA), Angular
2017	Xamarin (internal to SPEC-INDIA)
2015	MVC4 (internal to SPEC-INDIA)
2014	HTML5, CSS3, JQuery (internal to SPEC-INDIA)
2014	.Net 3 Tier architecture (internal to SPEC-INDIA)
